

A high-angle photograph of a man and a woman on a green artificial soccer field. The man, wearing a light blue polo shirt and dark trousers, is carrying the woman in his arms. The woman, wearing a light blue polo shirt, dark shorts, and white sneakers, is holding a bouquet of white flowers. They are both looking at each other and smiling. The field has white and orange boundary lines. The background is a vast, open green field under a clear sky.

PROJECT WEDDING DAY

AS FEATURED ON

**SINGAPORE
BRIDES**

Hello There!

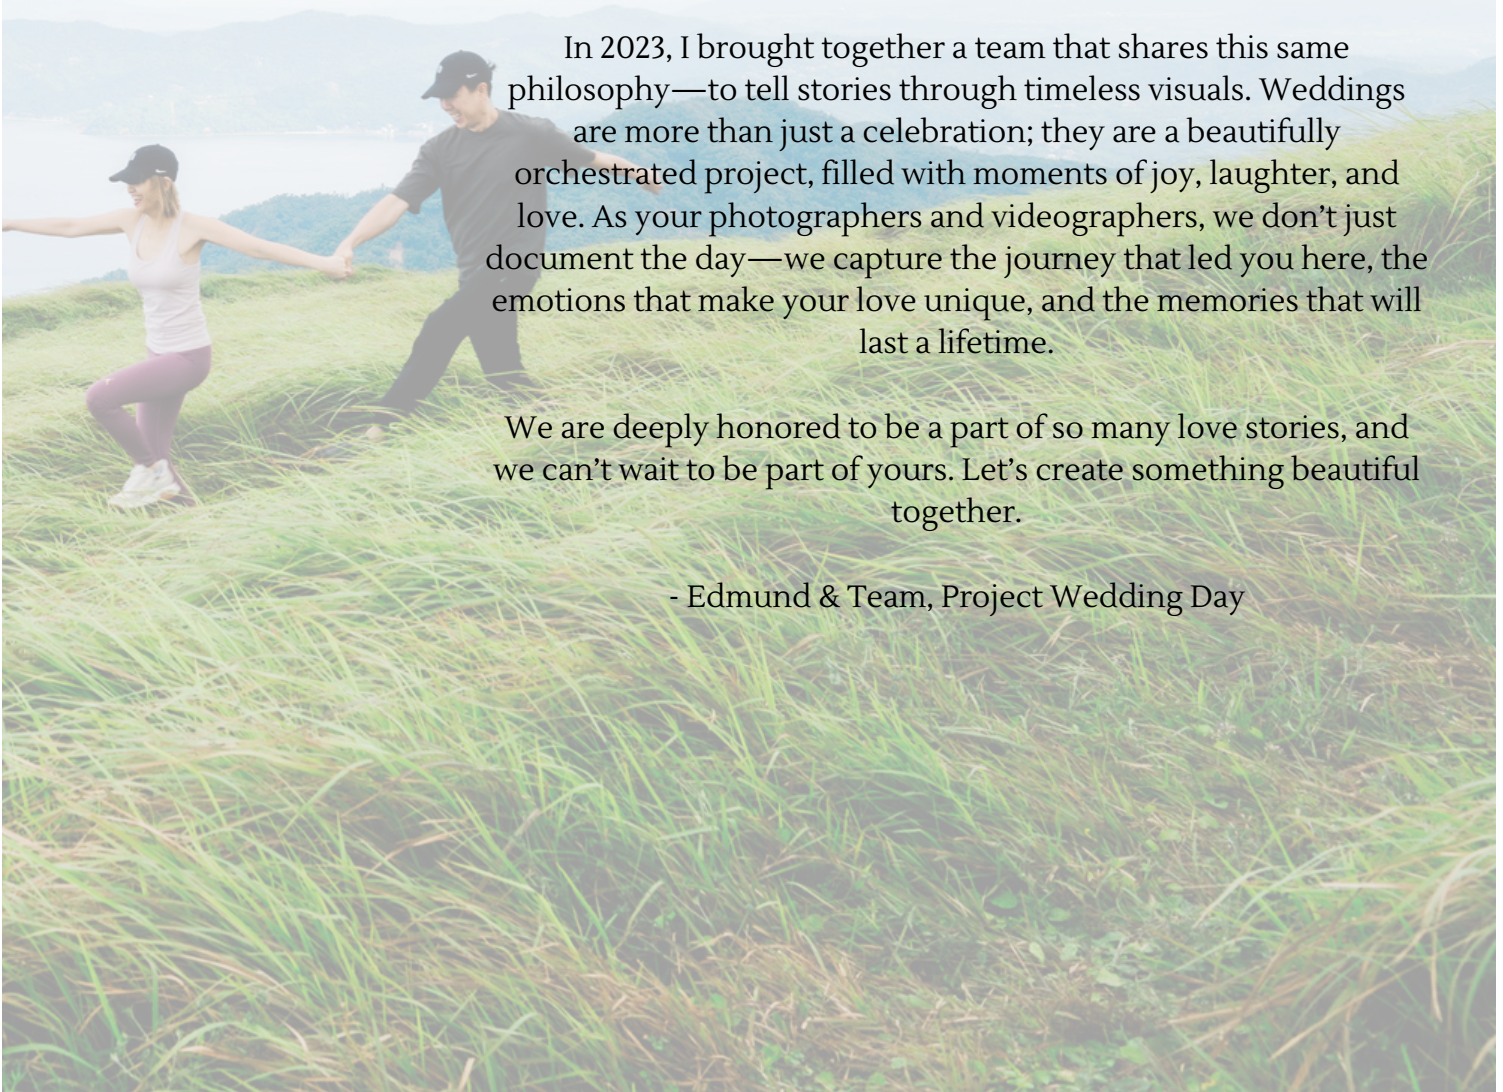

My name is Edmund, and I am the founder of Project Wedding Day—a team of passionate wedding photographers and videographers dedicated to capturing the essence of your love story.

My journey began nine years ago with wedding videography, and along the way, I fell in love with photography too. I've always believed that life is made up of fleeting, precious moments—ones that deserve to be remembered, felt, and relived. Whether I'm traveling, hiking, or simply observing human interactions, my camera is always by my side, ready to capture raw, authentic emotions.

In 2023, I brought together a team that shares this same philosophy—to tell stories through timeless visuals. Weddings are more than just a celebration; they are a beautifully orchestrated project, filled with moments of joy, laughter, and love. As your photographers and videographers, we don't just document the day—we capture the journey that led you here, the emotions that make your love unique, and the memories that will last a lifetime.

We are deeply honored to be a part of so many love stories, and we can't wait to be part of yours. Let's create something beautiful together.

- Edmund & Team, Project Wedding Day

My name is Calvin, and I'm part of the project wedding team. My journey in photography started with street photography back in high school. I've always been drawn to the raw, unfiltered emotions of people—capturing fleeting expressions and spontaneous moments that tell a story.

This passion naturally led me to wedding photography, where I focus on documenting genuine emotions rather than staged perfection. I believe that the most beautiful moments are the ones that happen organically—laughter shared between loved ones, quiet glances filled with meaning, and the emotions that unfold naturally throughout the day.

Through my lens, I strive to preserve not just images, but memories—honest, heartfelt, and timeless.

Hi, my name is Julius. 13 years ago, my journey as a photographer began on one of the most important days of my life—my own wedding. Seeing the way our photographer captured every emotion, every fleeting moment, and every little detail sparked something in me. I realized then that photography wasn't just about pictures; it was about preserving memories, telling stories, and freezing emotions in time.

Since that day, I've been passionate about capturing the raw, unscripted moments that make weddings so special—the laughter, the tears, the quiet glances, and the big celebrations. My goal is to create images that don't just remind you of how your wedding day looked, but how it felt. I believe that the best photos come from genuine emotions, and I strive to document your love story in the most authentic way possible.

Every wedding is unique, and I consider it an honor to be entrusted with preserving these once-in-a-lifetime memories. Let's create something beautiful together!

A romantic prewedding engagement photograph of a couple walking through a field of tall, golden-brown grass. The woman, on the left, is wearing a white sleeveless wedding dress and holding a bouquet of white flowers. The man, on the right, is wearing a white long-sleeved shirt and light-colored trousers. They are holding hands and looking at each other with smiles. In the background, there is a dense line of green trees, and beyond that, several modern high-rise apartment buildings are visible under a soft, overcast sky. A gravel path winds through the grassy area behind them.

FREQUENT ASKED QUESTIONS

What are the payment terms like?

Our prices here are nett. We require a 50% deposit to reserve your slot and the remaining 50% is to be paid after your shoot.

What does flexible hours mean?

For instance, if you get a 12-hour package, you can allocate your 12 hours across multiple days for different events. You can use 1.5 hours for your ROM, 1.5 hours for a pre-wedding shoot, and have 9 hours remaining for your actual wedding day. How you allocate the hours is up to you!

Can we customize a package to fit our needs?

Absolutely! We understand that every wedding is unique, so we offer flexible packages that can be tailored to your specific requirements. Whether you need additional hours, a second shooter, or specific types of coverage, we are happy to create a package that fits your vision and budget. Let's chat about what works best for you!

Why should we book early?

Each of our photographers and videographers can only take on one wedding per day. To secure your preferred date, we recommend booking at least 9 months in advance. This also allows time for interaction with our team, planning, and providing helpful guidelines to ensure a smooth and well-coordinated wedding day.

Why should we get both photo and video from the same company?

When you book photography and videography with us, you get a coordinated team that works seamlessly together. This ensures consistency in storytelling, framing, and overall style.

Additionally, if any contingencies arise, our team has another member available to step in and provide immediate support on your big day.

What is the team's working style?

As a small team, we pride ourselves on being flexible and highly adaptable to your unique needs. Our approach balances documentary-style storytelling and guided portraiture, focusing on genuine emotions and candid moments while making sure you feel comfortable in front of the camera. We can provide a more personalized experience, tailoring our photo and video work to match your vision and preferences.
